VENTURE.

This well-known Trotting Stallion is now standing at the corner of Punchbowl and Queen streets, and breeders, horsemen and stock-owners should take advantage of the opportunity to obtain his blood while they have the chance. He is now looking and feeling nearly as well as he ever did in his life, and moves as lively

It does not require a great horseman to discover great points of excellence in VENTURE. The ordinary citizen, upon beholding him, will be impressed immediately with his grand make-up, magnificent length, and elegant finish. If he is not the greatest horse that ever came to this country, he is surely one of the greatest, and as a turf performer, he towers as far above them all as he does above a sucking colt in statue. A great deal of importance has lately been attached to the value of a horse that is being kept for stock purposes, whether he is standard or not, and the President of the National Association of Trouting Horse Breeders in America strongly advises people not to patronize stallions that are not standard bred, and he also advises them to select one not only standard bred, but if possible one that its standard by his own performance, which is a public record of 2:30, or better, and even more than this by the performance of his get also. Now, if this rule was rigidly applied it would exclude all such great horses as Electioneer and the sizes of Mand S. and Jay Eye See, etc., for while they have become greatly renowned by the performance of their get, they never were turf performers themselves.

As to breeding, he is the peer of any horse on earth, and I don't except the great Hermit, who is the most sular stallion in England, and whose service fee is £500, he being the sire of three Derby winners. As to his own performances, he meets the requirements, having a public record of stariff -- stan being the

Now, we will see, for curiosity, how near VENTURE comes to possessing these three qualifications, mely! Breeding, performances and performances of hit get.

His get are now just beginning to be appreciated in California, one of which (Vengcance) won a good tace utile lately in Sacramento, to straight heats, making a record of 2134, and is said to be able to trot close to stee, then called upon to do so. With these facts before us, VENTURE looms up as one of the greatest horses, not only in this but in any ther country, and the day is past when people will breed anything but the very best; and while the death of we such great horses as Boswell and Bazaar is creatly deplored by all true horsemen, still it is a great con-olation that there is so good a horse as VENTURE to fill their place.

VENTURE is an aged horse, but he is one year younger than Dictator, who was sold only last year in Kentucky for \$25,000, on the strength of his being the sire of Jay Eye bee. His sind fee is \$300. He is also ten years younger than Volunteer (sire of St. Julien), whose fee is \$500. All things taken into consideration, I cannot see why VENTURE is not as desirable a horse to breed from as any of them, or why he is not as worthy of the patronage of the public. Below i will give his pedigree, of which I invite a comparison with that of any other horse in the country:
